1. Please describe the practices in class that were most effective for helping you to learn the course material.

I think we came at the novels and the historical and cultural influences from a variety of angles. The reading materials gave a lot of context to the subject of the ~~novels~~ novels.

2. Please describe your satisfaction with the instructor during the course of this class – what she did effectively.

*She worked very hard to create an environment in which discussion and learning could develop.*

3. Please describe any changes that you would like to see the instructor implement in this class in the future – what she can improve upon.

*I really wouldn't change anything. It could definitely be a full-semester class however.*

1. Please describe the practices in class that were most effective for helping you to learn the course material.

Class room discussions and exercises where we examined / g perspectives with information from the text were very effective. Also effective were the mixed media resources; video, audio, art, articles, interviews etc.

2. Please describe your satisfaction with the instructor during the course of this class – what she did effectively.

I was satisfied with the great insight and examples we had at class.

3. Please describe any changes that you would like to see the instructor implement in this class in the future – what she can improve upon.

~~Any changes~~ I just wish the class was longer but I don't have any suggestions.

1. Please describe the practices in class that were most effective for helping you to learn the course material.

In Class Discussions were extremely helpful in learning course material. I really felt as if I had a voice in every single discussion.

2. Please describe your satisfaction with the instructor during the course of this class – what she did effectively.

Extremely Satisfied. Professor Augustine is super involved and thought provoking.

3. Please describe any changes that you would like to see the instructor implement in this class in the future – what she can improve upon.

N/A. Keep it exactly the same.

I really enjoyed this class, especially the small class size and the heartfelt discussions we had between people of differing opinions and backgrounds. It really was the only high point of an overall trying semester. Despite it being late at night, I always looked forward to it, and Prof. Augustine was a large reason why.
